

Course/studio syllabi 2023-2024

1. Data on the study programme

1.1 Institution	Technical University of Cluj-Napoca
1.2 Faculty	of Architecture and Urban Planning
1.3 Department	Architecture
1.4 Domain	Architecture
1.5 University level	Licence and master's degree
1.6 Study programme/Qualification	Architecture
1.7 Form of studies	IF – on-site full-time studies
1.8 Course / studio code	302.00

2. Data on the course

2.1 Name of the course		Volunteering 2			
2.2 Course/ Studio Head					
2.3 Head of seminary/ laboratory/ studio		Assist. PhD arch. Alina Elena VOINEA - alina.voinea@arch.utcluj.ro as first-year study advisor first semester of 2023-2024			
2.4 Study year	1	2.5 Semester	2	2.6 Type of evaluation	verification on the way
2.7 Course /studio regime	Formative category: fundamental (DF)/ linked to the domain (DD)/ specific (DS)/ complementary (DC)				DC
	Compulsory (DI)/ Optional/ (DOp)/ Voluntary (DFac)				D.Fac.

3. Total estimated time

3.1 Number of hours/week		out of which:	3.2 Course		3.3 Seminary		3.3 Laboratory		3.3 Project	
3.4 Number of hours/semester		out of which:	3.5 Course		3.6 Seminary		3.6 Laboratory		3.6 Project	
3.7 Distribution of time (hours)/ semester for:										
(a) Individual study supported by course textbook, course text, bibliography, and notes										
(b) Supplementary study in the library, online, and on site										
(c) Preparation for seminars/ laboratories/ assignments, reports, portfolios, and essays										
(d) Tutoring										
(e) Examination										
(f) Other activities										50
3.8 Total hours of individual study (sum (3.7(a)...3.7(f)))										
3.9 Total semestrial hours (3.4+3.8)				50						
3.10 Number of credits				2						

4. Preconditions (where applicable)

4.1 curriculum preconditions	-
4.2 competence preconditions	-

5. Conditions (where applicable)

5.1. to conduct the volunteering internship	the existence of an institutional protocol between UTCN and various institutions (NGO, public institution or design office, etc.) - the development by the institution with which there is the protocol of projects in which UTCN volunteers can be involved
---	--

6. Specific competencies

Professional competencies	<p>By completing the volunteering internship, students acquire at least one of the knowledge, skills and competence in the following groups according to H.G. 469/24.06.2015:</p> <ul style="list-style-type: none"> a) the ability to design architectural projects that meet both aesthetic and technical requirements; b) adequate knowledge of the history and theories of architecture and related arts, technologies and human sciences; c) knowledge of fine arts as factors that may influence the quality of the design of architectural projects; d) adequate knowledge of urban planning, planning and techniques applied in the planning process; e) the ability to understand the relationships between people and architectural creations, on the one hand, and architectural creations and their environment, on the other, and the ability to understand the need to harmonize architectural creations and spaces according to human needs and scale; f) the ability to understand the profession of architect and its role in society, in particular by drawing up projects taking into account social factors; g) understanding the methods of research and preparation of the construction project; h) knowledge of structural design, construction and engineering problems associated with the design of buildings; i) adequate knowledge of physical problems and technologies and of the function of buildings so as to equip them with all elements of interior comfort and climate protection, within the framework of sustainable development; j) the technical ability to design constructions that meet the requirements of users, while respecting the limits imposed by the budget and building regulations; k) appropriate knowledge of the industries, organisations, regulations and procedures involved in the process of project implementation in buildings and the integration of plans into overall planning.
Transversal competencies	<p>By completing the volunteering internship, students acquire at least one of the competences below, according to Annex 1 - Regulation on granting credits for volunteering in UTC-N1.</p> <ol style="list-style-type: none"> 1. Communication in the mother tongue - the ability to express and interpret concepts, thoughts, feelings, facts and opinions, both in oral form and in written form (listening, speaking, speaking, read and write) and interact linguistically in an appropriate and creative way in a full range of cultural and social contexts; 2. Communication in foreign languages - which, in addition to the main dimensions of communication skills in the mother tongue, also involves the skills of mediation and intercultural understanding. The level of knowledge depends on several factors and the ability to listen, speak, read and write; 3. Basic mathematical skills and competences in science and technology - the ability to develop and apply mathematical thinking to solve various problems in everyday situations, focusing on the process, the activity and knowledge. Basic science and technology skills refer to the mastery, use and application of knowledge and methodologies to explain the world around. These involve an understanding of the changes caused by human activity and the responsibility of each individual as a citizen; 4. Digital skills - the reliable and critical use of information society technology (ITSI) and therefore basic skills in information and communication technology (ICT);

	<p>5. "Learning to learn" the ability of man to pursue and organize his own learning, either individually or in groups, according to his own needs, as well as awareness of methods and opportunities;</p> <p>6. Social and civic competences - personal, interpersonal and intercultural competences and all forms of behaviour that allow each person to participate effectively and constructively in social and professional life. These skills are related to personal and social well-being. It is essential to understand the codes of conduct and customs of the various environments in which people work. Civic competence, in particular knowledge of social and political concepts and structures (democracy, justice, equality, citizenship and civil rights), makes active and democratic participation of people possible;</p> <p>7. Spirit of initiative and entrepreneurship - the ability to turn ideas into action. This sense involves creativity, innovation and risk-taking, as well as the ability to plan and manage projects in order to achieve goals. The person is aware of the context of his own activity and is able to capitalize on the opportunities arising. This is the foundation for acquiring more specialised skills and knowledge that those who establish or contribute to a social or commercial activity need. This should include awareness of ethical values and promotion of good governance;</p> <p>8. Cultural awareness and expression - appreciation of the importance of the cultural expression of ideas, experiences and emotions through a series of channels (music, theatre, literature and visual arts).</p>
--	---
