## PERSONAL SKILLS

### MANAGEMENT SKILLS

Demonstrated ability to lead.  
Provide leadership and direction to a team of people.  
Managing architecture and interior design projects from pre-appointment through to completion.  
Support the project design process.  
Train new hires on business practices.  
Drive development of employees.  
Ensure that quality of work or service is maintained.  
Responsibility for producing and managing the projects programme.  
Deliver exception environments from an aesthetic and business performance perspective

### COMMUNICATION SKILLS

Client and professional team correspondence.  
Responsible for meeting key stage deliverables and deadlines.  
Meeting and building relationships with clients and potential clients.  
Understand clients' brand strategies, positioning, strengths & weaknesses.

Excellent communication, interpersonal and presentation skills.  
Strong attention to detail with an ability to resolve problems.

Provide design based training for dealers and partners from Africa and Middle East.

Assist and define project/opportunity scope, resource planning and project timelines

### CREATIVITY SKILLS

Develop design solutions and strategies in terms of workplace and corporate design offices, for the French speaking markets of Europe (especially Parisian area), for Central Europe and for Middle East.

Provide creative ideas for new or existing interior spaces (workplaces and public sector facilities: restaurants, hotels, coffee shops and other commercial spaces).

Understand and determine consumer needs, creating demand for products and services and providing tailored solutions based on personal insights and clients' needs.

Collaborate with interdisciplinary international teams to develop creative ideas/solutions, concerning specific needs and issues.

Work closely with Sales Persons, Architects, Suppliers, Project and Business Managers, Product Managers and Marketing Departments.

Apply Lean and Agile Methodology in processes and projects.
